THE EVENING JOURNAL ALMANAC.

1870.

Eclipses for the Year 1870.

There will be six Eclipses this year, as follows:

I. A Total Eclipse of the Moon, January 17th, in the morning: visible in Asia, Europe, and the western part of North America. In the United States east of the Mississippi river, it is not generally visible; but west of that it is wholly or partially visible.

II. A Partial Eclipse of the Sun, January 31st; not visible in the United States, but in the Antarctic regions.

III. An Eclipse of the Sun, June 28th; not visible in America, but in the Southern Pacific ocean east of Australia.

IV. A Total Eclipse of the Moon, July 12th; invisible in the United States.

V. A Partial Eclipse of the Sun, July 28th, in the Arctic regions.

VI. A Total Eclipse of the Sun, December 28th; invisible in the United States. The line of total obscuration runs through southern Spain, Algiers, Sicily, Greece, Turkey, and into Russia.

MORNING STARS. — Venus from February 23d to December 8th. Mars from March 12th to December 16th. Jupiter from May 24th to September 18th. Saturn until March 18th, and from December 22d to March 30th, 1871.

EVENING STARS. — Venus until February 23d. Mars until March 12th, and all of 1871. Jupiter until May 24th, and after September 18th. Saturn from March 18th to December 22d.

PLANETARY NOTES. — Mercury will be at stations favorable for being visible March 3d, July 1st, October 22d, being then in the east just before sunrise; also January 15th, May 8th, September 4th, and December 29th, being then low in the west soon after sunset. The planet is brightest at these times. Venus will be brightest January 17th and March 30th. Mars not coming to the opposition this year, will not be brightest. Jupiter brightest December 13th, rising at sunset. Saturn brightest June 16th, rising at sunset.

TO GET CORRECT TIME. — When the shadow cast by the Sun reaches the noon-mark, set the clock at the time given in calendar pages of this Almanac, in the column of "Sun at Noon-mark," and it will be exactly right. If a meridian line is used instead of a noon-mark, the passing the lines by the Sun's centre is the moment for setting the clock. Any skilful surveyor can make a noon-mark or meridian lines of small brass or copper wires. In doing so, he must allow for the variation of the magnetic needle from a true or astronomical north and south line.

TO ASCERTAIN THE LENGTH OF THE DAY AND NIGHT. — At any time of the year, add 12 hours to the time of the Sun's setting, and from the sum subtract the time of rising, for the *length of the day*. Subtract the time of setting from 12 hours, and to the remainder add the time of rising next morning, for the *length of the night*. These rules are equally true for *apparent* time.

LEAP-YEAR. — Every year the number of which is divisible by 4 without a remainder, is a leap-year, except the last year of the century, which is a leap-year only when divisible by 400 without a remainder. Thus the year 1900 will not be leap-year.

THE NEW VOLCANO OF SANTORIN, in the Grecian archipelago, has now been three years in operation, and is unceasing in its activity. A column of smoke four or five thousand feet high rests over it always; and every few minutes some explosion, large or small, occurs. The island is steadily enlarging its bounds, and its summit is 500 feet high.

ARTIFICIAL STONE is becoming an article of very general use, and its manufacture is a business of great and increasing value, especially in regions where natural stone is scarce, as in many parts of the West. The material is readily moulded into any desired form; and a mantel equal to one of white marble can be made of common sand, and at very low cost.

THE SUEZ CANAL is this year open to the commerce of the world, and will divert a large share of the commerce between European countries and eastern and southern Asia from the tedious and expensive route around the cape of Good Hope.

DOUBLE TRANSMITTER. — A recent improvement in telegraphic instruments has been tried between Boston, New York and Philadelphia, and is working with success. An apparatus, named after Franklin, has been contrived, by which messages can be sent in opposite directions over a single wire at the same time; thus making a single wire nearly as serviceable as two under the ordinary mode of telegraphing.

ANOTHER great enterprise, but of different and greater engineering difficulties than the Suez canal, is the opening of a ship canal across the isthmus of Darien — connecting the gulf of Mexico with the Pacific ocean. This work, as now planned, involves mountain tunnelling on a scale heretofore unattempted.

AN OLD BUGBEAR EXPLODED. — A recent report on the Norwegian fisheries states that the famous maelstrom on the coast of Norway is so little feared by the people, that they pass and repass it in their sail vessels at all states of the tide, except on certain times in the winter, and even then the greatest rate of the tide does not exceed six miles an hour.

COAL. — During the last fifty years the use of coal has increased enormously, in a great measure through the growing use of steam-power. The annual coal production of the world is now estimated as follows:

Great Britain, 104 million tons; North America, 32 millions; Germany, 17; Belgium, 12; France, 10; other countries, 7; total, 172 million tons. Total value, \$375,000,000.

The area of known coal-beds in all the world, outside of the United States, is estimated at 26,000 square miles; while that of the United States is *eight times as large*. At the present rate of increase in consumption, a few generations would exhaust the world's supply of coal, so far as we can now judge. England especially is pondering how to avert the rapidly approaching exhaustion of this great source of her wealth.

A NEW SUSPENSION BRIDGE has been constructed at Niagara, close to the falls, for carriages and pedestrians. It is 1,250 feet long, with towers 105 feet high, and two cables of twisted steel wire nine inches thick.

NIAGARA FALLS. — Some geologists predict a great change in the character of these falls. The hard limestone over which the water passes is slowly wearing away, and the current in some places, about eight hundred yards above the Canadian fall, has obtained access to the soft shales underneath, which are rapidly eaten away. It has been surmised that a subterranean stream of water is now pouring into the gulf below the falls, and that the "Horseshoe" shelf will ere long be undermined and destroyed. When this occurs the falls will be converted into a rapid, and the great mass of water will be diverted from the American to the Canadian shore.

THE USE OF STEEL instead of iron for rails, boilers, machinery, and all cases where strength is demanded, is rapidly increasing. The manufacture of steel exceeds all others in extent and importance; and as America has an abundance of the best iron ore, and inexhaustible supplies of coal, it will without doubt take a leading share in the manufacture of steel.

CALIFORNIA FARMING. — California papers, in illustrating the profit of farming in that wonderfully productive State, mention the case of a farm of 160 acres in Salinas county, which was purchased a year ago for \$3,700. The entire value of the first year's crops was \$7,500, or double the cost of the farm, the returns of the barley crop alone being sufficient to pay the cost of the land and the freight of the barley to market.

LOCOMOTIVES on common roads have been tried with good success, the tires made of vulcanized rubber bands twelve inches wide and five inches thick. One of these engines ran across a grassy lawn and over loose soil easily and rapidly; and on a common road it took in tow a large omnibus full of passengers, and a large wagon loaded with flour, and drew them up a steep lane full of ruts with a rise of one foot in twenty. The motion was easy, and the tires were uninjured.

THE "WEST-SIDE ELEVATED RAILWAY" in New York city, running at present from the Battery to Thirtieth street, is the first railway in America of its kind. The rails are laid on cradles at the top of cast-iron hollow pillars, set from 20 to 40 feet apart. The road is fourteen feet in the clear above the street level. The cars are propelled by an endless cable of wire, an inch in diameter, driven by stationary engines under ground. The wire cable carries with it small trucks, 50 yards apart; and one of these is caught by a projecting lip underneath the car, which holds the truck and moves the car along, till it is dropped and the car stops. An arrangement of India-rubber springs, buffers, etc., prevents all jar at starting. Speed, ten miles an hour.

UNITED STATES GOVERNMENT.

PRESIDENT.

ULYSSES S. GRANT, of Galena, Ill. Term expires March 4, 1873.

The President is chosen by Electors, who are elected by the People, each State having as many as it has Senators and Representatives in Congress. He holds office four years; is Commander-in-Chief of the Army and Navy of the United States; has power to grant pardons and reprieves for offenses against the United States; makes treaties by and with the advice and consent of the Senate; nominates, and, with the consent of the Senate, appoints, all Cabinet, Diplomatic, Judicial and Executive officers; has power to convene Congress, or the Senate only; communicates to Congress, by message at every session, the condition of the Union, and recommends such measures as he deems expedient; receives all Foreign Ministers; takes care that the laws are faithfully executed, and the public business transacted. Salary, \$25,000 a year.

VICE-PRESIDENT.

SCHUYLER COLFAX, of South Bend, Ind. Term expires March 4, 1873.

Is chosen by the Electors at the same time and in the same manner as the President; is President of the Senate, and has the casting vote therein. In case of the death, resignation, disability or removal of the President, his powers and duties devolve upon the Vice-President for the residue of his term. In cases of vacancy, where the Vice-President succeeds to the Presidential office the President of the Senate becomes *ex officio* Vice-President. Salary, \$3,000 a year.

XLlSt CONGRESS.

The Constitution requires nine years' citizenship to qualify for admission to the Senate, and seven years' to the House of Representatives. An act approved July 26, 1866, requires the Legislatures of each State which shall be chosen next preceding any Senatorial term, on the second Tuesday after its first meeting, to elect a successor, each House nominating *viva voce*, and then convening in Joint Assembly to compare nominations. In case of agreement, such person shall be declared duly elected, and if they do not agree, then balloting to continue from day to day at 12 M. during the session, until choice has been made. Vacancies are to be filled in like manner. The members of each House receive a salary of \$5,000 per annum, and mileage at the rate of 20 cents per mile. For each day's absence, except when caused by sickness, \$8 per diem is deducted from the salary. The President of the Senate *pro tem.* receives the same compensation as the Vice-President. The Speaker of the House of Representatives receives double the salary of a member.

The Forty-first Congress commenced its first regular session March 4, 1869, and adjourned. Its second regular session began December 2, 1869.

TERRITORIES.

ALASKA.

The entire coast line of the United States, exclusive of Alaska, is 10,000 miles, while the coast line of Alaska alone, including the islands, is 26,000 miles. The portion of the Territory which lies east of the peninsula, including islands, is 120 miles wide; the western portion, including the Aleutian Islands, expands to a breadth of 2,200 miles. The entire land area, including island, is 577,390 statute square miles. It has a military form of government.

ARIZONA.

The regular election for Delegate to Congress occurred June 3, 1868. There was no Territorial Nominating Convention, although the Democrats urged one, and those of Yavapai county met and nominated John A. Rush, and asked his support as a regular nominee. Samuel Adams took the field as an Independent Democrat, and Governor Richard C. McCormick as an Independent Union Candidate. The vote was for Rush 644; Adams, 186; McCormick 1263. Total, 2,093.

FIFTEENTH AMENDMENT.

The following amendment to the Constitution of the United States, offered by the House of Representatives, Thursday, February 25, 1869, by a vote of 143 yeas to 43 nays, and by the Senate the following day, 39 to 13, has been proposed by the Congress to the Legislatures of the several States:

ARTICLE FIFTEEN.

SECTION 1. The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude.

§ 2. The Congress shall have power to enforce this article by appropriate legislation.

STATES WHICH HAVE RATIFIED THE AMENDMENT.

Nevada, March 1; Louisiana, March 1; West Virginia, March 3; North Carolina, March 4; Illinois, March 5; Michigan, March 5; Wisconsin, March 9; Maine, March 11; South Carolina, March 11; Pennsylvania, March 11; Massachusetts, March 12; Arkansas, March 15; New York,* April 14; Connecticut, May 13; Indiana, May 14; Florida, June 14; New Hampshire, July 1; Virginia, October 7; Vermont, October 13; Alabama, November 16, 1869; Missouri January 7, 1870 — 21.

STATES WHOSE RATIFICATION HAS BEEN DEFECTIVE.

Kansas, February 27; Missouri, March 1, 1869 — 2.

STATES WHICH HAVE REJECTED THE AMENDMENT.

Delaware, March 1; Kentucky, March 12; Georgia, March 18; Ohio, April 30; Tennessee, November 16, 1869 — 5.

STATES WHICH HAVE NOT YET VOTED.

California, Iowa, Maryland, Minnesota, Mississippi, Nebraska, New Jersey, Oregon, Rhode Island, Texas — 10.

* A resolution withdrawing the ratification was passed by the Legislature of New York, January 5, 1870. In the case of the 14th amendment, the Congress declared the power of withdrawal had not been conferred upon the Legislatures, and, therefore, such action was unconstitutional.

RECORD OF THE YEAR.

Politically, the year 1869, as has generally been the case, exhibited a species of reaction from the previous Presidential year. The elections have generally shown Democratic gains — that is, the dominant party, feeling all its great interests safe, did not bring out its vote in the same relative degree that the opposition did. A warm canvass took place in the Central States, Ohio and Pennsylvania giving small Republican majorities. In New York, for the first time in over twenty years, the Democratic Party obtained full possession of every branch of Government. The question of Reconstruction in Virginia, Mississippi and Texas, is still unsettled, but in a fair process of adjustment, upon enduring principles. In Tennessee, a reaction has taken place against undue proscription. A Republican was elected Governor through a union with the Democracy, the result of which was that the Legislature is composed almost entirely of Democrats. A Constitutional Convention is to be held. Whether it will place the State upon the opposite extreme of oppression remains to be seen. The defeat of the Senatorial aspirations of Andrew Johnson was a marked event. Congress, before its adjournment over the holidays, passed a law, which received the signature of the President, restoring the colored members of the Georgia Legislature who had been expelled, to their seats, and providing for the completion of reconstruction upon the basis of equality of rights. The great national work, the Pacific Railway, was completed on the 10th of May, and interesting ceremonies took place. Wyoming Territory has but few women, and the settlers desire more badly; hence the Legislature enacted a law conferring the right of suffrage upon women. The year has been one of very destructive storms.

The Cuban revolutionists maintain a control over about half the island, a little more area, and a little less population. The Spaniards have perpetrated many cruelties. An armada of gunboats, built for the Spanish service adjacent to New York, after being held by the United States authorities for some time, was permitted to leave in December, without judicial exposition of the statute of 1818 prohibiting the fitting out of vessels against any "colony, district or people," with whom the United States is at peace. The Mormons have been rent by dissension. The Chinese emigration question has come into prominence as an industrial problem.

The South American Republics continue in a strange state of disturbance. Lopez has been finally driven from Paraguay, after years of heroic resistance against a powerful foe.

Popular progression is the order abroad. In France, Legislative freedom has finally been obtained, and a Liberal Ministry, headed by M. Ollivier, organized. Napoleon's health is failing. He declares it to be his purpose to secure Order and Liberty for Franco. Order, by means of strong Imperialism, and Liberty through an extension of Parliamentary privileges and rights. In Great Britain, the disestablishment of the Irish church, which was among the real achievements of 1868, was consummated in 1869. The next question is that of Irish Land Reform. This is of more importance than the religious issue. Upon it depends the welfare of the oppressed tenants of the soil, and the restoration of Ireland to prosperity. Justice anticipates a triumph during the present year. The Gladstone Ministry is strong, progressive, cautious. Spain is still unable either to go forward or backward. Popular outbreaks have taken place. The Regency are ostensibly trying to make a King, having settled down upon the schoolboy Duke of Genoa, son of Victor Emmanuel, for the thorny crown. The partisans of other aspirants are hopeful, and the Republicans are determined. Castelar still continues to inspire them with his marvelous eloquence. An Ecumenical Council is sitting in Rome. It was called by the Pope, with the view of placing science and liberty under the ban of the church; but the resistance has been powerful. The vigorous protest of Father Hyacinthe, and his departure from France for this country, with other demonstrations, have given hope of a more liberal termination of the council. Victor Emmanuel, upon what was supposed to be his dying bed, was recommended to the Pope. The Sultan and Viceroy of Egypt have quarreled with considerable rancor, but there has been no rupture. The other European governments display no marked change. Prosperity has attended them all. The completion of the Suez Canal was celebrated with great éclat in December, Eugénie being present. De Lesseps, the engineer, received marked honor, as he deserved. In the East, affairs remain unchanged. Japan is still torn by revolution.

ALBANY EVENING JOURNAL.

DAILY, SEMI-WEEKLY AND WEEKLY.

While the JOURNAL will, as hitherto, maintain its distinctive political character, it will, more than ever, be made a FAMILY NEWSPAPER. Increased attention will be paid to the Commercial, Local and Miscellaneous Departments, while additional care will be taken to keep fully up with the news of the day.

It is especially our purpose to render our WEEKLY additionally attractive. Although it will be impossible to crowd into it all that will appear in the Daily, we shall make such selections as will keep its readers informed of whatever is of importance or interesting in the busy world.

In the ample pages of our SEMI-WEEKLY we will be enabled to give all the matter published in the Daily. To those who, from the want of mail facilities, cannot take the Daily, the Semi-Weekly will be found valuable.

Terms.

DAILY..... \$9 00 per year in advance.
SEMI-WEEKLY..... 4 00 " "

WEEKLY.

Single copies..... \$2 00 per year.
Ten copies..... 15 00 "
Twenty copies..... 30 00 "

An extra copy for every 10 subscribers.

As a reliable medium of Political information, it is conceded to have few or no rivals. Located at the Capital of the chief State in the Union, it possesses facilities for obtaining information not within the reach of other newspapers. Its Legislative Reports are the fullest and the earliest that are published. Its Telegraphic Reports from Washington enable it to give the Congressional Proceedings on the same day that they occur. The proceedings of Conventions, Political or otherwise, Speeches, Addresses and Public Documents, all find place and comment in its columns.

Commercial Department.

Especial care is devoted to its Commercial Department. Its position at the point where the great stream of Western trade divides, enables it to give the earliest, most impartial and reliable reports of the daily changes in the Market for Western Produce, Country Produce, Lumber, Cattle, New York Markets daily (by telegraph), New York Sales of Stocks, daily, and a Weekly Stock Table, New York Wholesale Price Current, Markets in the various cities, receipts by Canal, Bank affairs, New Counterfeits, &c.

General News Department.

Its General News Department is in experienced hands, and constant pains are taken to render it acceptable, both by giving all interesting or important intelligence, Foreign or Domestic, from the Mails and by Telegraph, and by carefully excluding anything which even a fastidious sense of propriety would deem unfit for the perusal of the young or of the Family Circle.

Literary Department.

A peculiar feature of the Literature Department of the JOURNAL is an entire page devoted every Saturday night to selections carefully culled from the latest publications of best known authors, frequently in advance of their issue in book form, and from distinguished novelists, English, French and American; Biographical and Historical Narratives, Sketches of Travel and Character; Tales, Poetry and Humor, from the best authors, will also be found in this department of the paper.

Local Department.

In the City News Column will be found all matters of interest transpiring in Albany. The local news of the neighboring towns and counties, Troy, Cohoes, Saratoga, Hudson, Schenectady, Lansingburgh, Greenbush, &c., is also given regularly.

Circulation.

The Circulation of the JOURNAL is larger than that of any other paper in the City or in the State, outside the City of New York. It extends to every county in the State, and every State in the Union, but its principal field of circulation is along the line of the great thoroughfares of Western Trade. These facts commend it as a HIGHLY DESIRABLE MEDIUM FOR ADVERTISERS.
